Dear Prof.Farooq,

This is in reference to ‘**GTC Registration & Attendance Awards program - NVIDIA GTC | March 21-23, 2023**’ run by RP-Tech, to encourage participation and attendance for NVIDIA GTC. While you have not qualified for any award, as you have not met the program deliverables, based on our discussion with NVIDIA, we are pleased to confirm as a special case, the award of NVIDIA Jetson Developer Kits for the establishment of an Embedded AI lab in the Institute. This award is also in anticipation of the continued support of your institute for NVIDIA developer program and GTC – next scheduled for March 2024.

We are here with confirming an award to the institution of 10 Jetson Developer Kits with **9 no of NVIDIA® Jetson Nano™ Developer Kit and 1 no of NVIDIA® Jetson Orin™ along with 1 no of JetBot.**

To take forward the dispatch of the award, we request you to confirm your acceptance of the award by reply email confirming your acceptance. We would also need you to attach the copy of the institute PAN card along with your confirmation, as pursuant to introduction of Sec 194R effective July 1, 2022, NVIDIA Graphics need to report any giveaways to the tax authorities and hence the Institute PAN is needed to submit TDS for the invoice value. The TDS (currently @10%) will be borne by NVIDIA and they will gross up the same for reporting to the tax authorities. The approximate invoice value (Invoice for warranty & Transit purpose only) of your award is **INR 191591/-**. You may want to check with Institute Finance/Tax team tax consultant further on any impact on your Income tax compliances.

For now, we request you to kindly revert with institute PAN details/copy and your confirmation by email of award acknowledgment, so that we can initiate the shipment of the award to you and further intimate NVIDIA to close the TDS payout.

Thanking you,
GTC Team
