A one Day Membership Drive on “Shape your Future with IEEE”

Date : 06/03/2026

Organizing by : SREC IEEE Student Branch STB17901 and
IEEE Computer Society SBC17901B In Association
with IEEE Power Electronics Society SBC17901C

No of Students Attended : 342

The SREC IEEE Student Branch organized a **One Day IEEE Membership Drive** on **6th March 2026** at the **Lecture Hall**. The event was conducted by **SREC IEEE Student Branch STB17901** and the IEEE Computer Society Student Branch Chapter (SBC17901B) in association with the IEEE Power Electronics Society Student Branch Chapter (SBC17901C).

The primary objective of this membership drive was to create awareness among undergraduate students about the importance of IEEE membership and the professional opportunities it provides. The session focused on encouraging students to become active members of IEEE and participate in technical activities that enhance their knowledge, innovation, and leadership skills. During the program, the organizers introduced students to the vision and mission of IEEE, which is the world’s largest professional organization dedicated to advancing technology for the benefit of humanity. Students were informed about various benefits of IEEE membership such as access to the ****IEEE Xplore Digital Library**, opportunities to participate in international conferences, technical workshops, seminars, hackathons, project competitions, and networking with global professionals and researchers.

The importance of IEEE technical societies such as the Computer Society and Power Electronics Society was also explained, highlighting their role in supporting research, innovation, and emerging technologies. Students were encouraged to involve themselves in IEEE activities, technical competitions, and collaborative projects that can enhance their academic and professional growth.

The membership drive received a positive response from students, and many participants expressed interest in joining IEEE and contributing to future technical events organized by the student branch. The event successfully motivated students to explore new technological opportunities and build a strong professional network through IEEE.

The program concluded with an interactive session where students clarified their queries regarding membership procedures, benefits, and upcoming IEEE activities. Overall, the membership drive was informative and inspiring, helping students understand how IEEE can play a significant role in shaping their technical careers.
